THE CONFUCIUS INSTITUTE OF THE STATE OF WASHINGTON

offers this book as a token of gratitude and celebration of our partnership with educators from China. We strive to develop programs in Washington State that build Chinese language literacy and appreciation of Chinese culture.

In this book of photographs, we highlight the collaboration of Chinese visiting teachers in Seattle Public Schools and in community exchange. Mentor teachers coming to Seattle, along with local Mandarin teachers, create a conduit between students in China and public school students and offer opportunities for an enriching exchange. In addition, the collaboration continues to build proficiency in the teaching of Chinese here in Washington.
